

# Hello....

Why are you staring at me? I am just a BLACK BOX

Stop!! Don't sway from side to side ..I got no label ..I am just a black box

I control things by providing current and I get really HOT!

Ouch!! they drilled a hole in me. it hurts...

Wait a minute!! I got a companion! a white cable: she is so sweet ..

It is dark in here & i got this blinking light on me but its no good!

Sigh.. I am just a BLACK BOX

I am sitting in dark , collecting dust , all alone..

Sigh ..I am just a BLACK BOX

Someone's here.....Can't hear right

They are arguing.....

Oh!... they are to label me....

Sigh... I WAS once just a BLACK BOX!!!!!!!!!!!!!!

## ABOUT MYSELF

About 7 years working on research electronics projects, I started to feel claustrophobic. I wanted to do something more challenging, something different perhaps ground breaking. Poem BLACK BOX on the previous page, about a current controller unit i had designed, is my first attempt at combining creativity with electronics in 2016. I have continued on the path since, blending technology & innovation with creativity, at ShwetSai Consultants.

## EDUCATION

### 2015

Project Management  
Courses UMCP, U.S.

### 2004-2006

M.Eng - Electrical  
Engineering , UMCP, U.S.

### 1997-2001

B.E. - Electrical  
Engineering , SCET, Surat

## OTHER SKILLS

- Leadership & Coordination
- Time management and Organizing
- Effective Communication
- Event Management
- Compering , Narration & hosting talk shows

## WORK EXPERIENCE

### 2016 - Present - India
